Webb Auctions utilize the absolute auction method on the majority of our real estate auctions. Selling without minimum or reserve ensures that all potential buyers will have arrangements secured, be in attendance and prepared to bid. The competition created by an Absolute Auction will achieve the maximum price available, in a favorable time frame, under your terms... not merely the first “acceptable” offer.

- “The actual selling of your property is done days and weeks ahead of the auction. Auction day we merely establish the price and the buyer.”
- Our commitment to details has been the key to our successful auctions. Award-winning brochures and advertisements, professional signage, clear property corner markings, detailed information packets and public inspection dates are a few innovations utilized.
