

McGhan Construction Co. Inc. & Big Lake Storage April 16, 2012, Dear Brad and Jill, We would like to thank you for the auctioneering you did for us on April 7th. We have been in the storage business since 1988 and always dreaded having to foreclose on units. We followed the whole procedure but the actual auction portion was pretty much nothing other than a nuisance. We rarely had anyone show up for them though we did our newspaper advertising as per procedure.

We had already scheduled the auction before we called you and you worked with us very well with that. You widened our scope of getting the word out, lent us signs and brought tremendous energy to the project! We were absolutely amazed at the number of people who came to the auction and the professional manner in which you ran the whole thing. You thought to cover things like retaining the personal papers and effects for the owners of the foreclosed units, making sure things were cleaned out in a timely manner and addressing things like guns and anything illegal, etc.

You also made it fun and exciting for everyone involved! Everyone was in a great mood, there was no bickering or hints of problems. You were very much in control and made it a good experience for all. The icing on the cake was that we also made money!!

We thank you for your help and are actually looking forward to our next foreclosure auction knowing that under the circumstances it can be a positive experience. We have already talked to friends and advised them that when they are looking to liquidate things hiring you as auctioneer will more than make them the monies you charge and make it a much easier task.

We are very, very pleased with our experience and thank you for your help. Sincerely, Tim & Lindsey McGhan

"Thank you for the outstanding job you did auctioning our business and personal items. Downsizing is always a stressful time and you're professional attitude made selling of our excess equipment less stressful." **Roger O. Purcell, Mayor - City of Houston**
